Part of the Cotecna Group

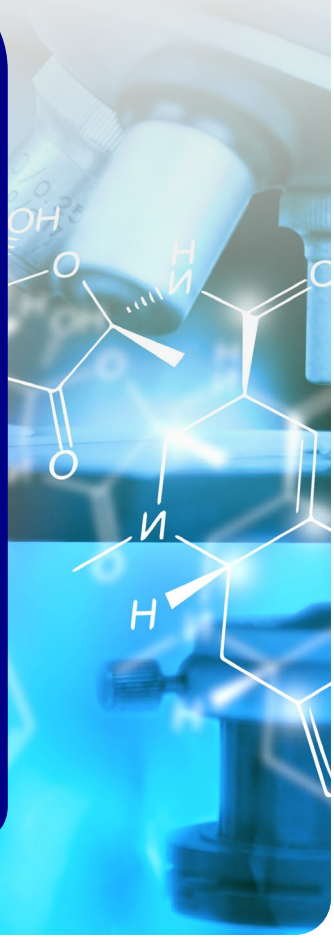
www.cotecna.com

Geo-Chem, utilizes the best techniques and cutting-edge technology for Pharma testing in one of the largest independent laboratories in India.

GEO CHEM INDIA

Part of the Cotecna Group

Geo-Chem is approved and recognized for testing of Pharmaceutical, Ayurvedic & Cosmetic products by Maharashtra FDA and accredited by NABL for Chemical, Instrumentation and Microbiological parameters. Pharma testing helps manufacturer to meet ever increasing regulatory and safety requirements. Geo-Chem holds extensive experience in pharma, Ayush & cosmetic testing and is able to provide clients with an expert team, resources and infrastructure to comply with regulatory requirements.



Client Challenges

Geo-Chem has a pharma client which is one of the top 3 in the India pharmaceutical industry. The client, headquartered in Mumbai, manufacturers more than 1,000 products in India and across the world. Before engaging Geo-Chem, the client faced shortages and needed a regulatory authorized testing facility to reduce their in-house testing burden while meeting regulatory requirements.

Geo-Chem Selection

Geo-Chem is a reputable, leading testing laboratory with state-of-the-art facilities to fulfil all testing requirements in compliance with GLP, Schedule L1 of the FDA Act.

Solution Development

Geo-Chem Laboratories (Rajkot) specially developed a solution, offering comparatively low pricing and a diversified local testing suite as a one-stop solution. In addition, as a provider, Geo-Chem is compliant with regulatory norms and follows data integrity policies and the ALCOA++ principle.

Solution Implementation

Geo-Chem Laboratories (Rajkot) is an FDA approved and ISO 17025:2017 (NABL) certified testing lab. The lab provides test reports and results within a stipulated timeline to our clients, which helps with client retention.

For example, during the Covid pandemic period one of the reputed client in collaboration with Geo-chem successfully submitted Covid Medicines analytical data to DCGI within stipulated timeline for further approval.

Measurable Impact

Geo-Chem's timely services in compliance w/ regulatory requirements, our client and its sister companies now use our services for testing of their samples, which gave us an opportunity to expand our market share and expertise.

Client Testimonials

During our annual visit, our previously mentioned valued client, always shows appreciation for the work we carry out for them in compliance with regulatory requirements & data integrity policies.

Collaboration Success Factors

Geo-Chem identifies the client's needs to adequately satisfy their requirements and comply with applicable regulations in accordance with data integrity, ALCOA++ etc. This approach helps in creating a successful collaboration and partnership with our clients.

Adaptability

Geo-Chem recognizes our clients' urgent need for sample testing, stability studies, method validation and method verification. We aim to facilitate all client needs and recognize good business opportunity in all verticals.

Long-Term Relationship

Our client has been working with Geochem for more than 25 years. Our long-term relationship demonstrates the high customer satisfaction related to the work carried out during this period.

Key Takeaways

At Geo-Chem we believe in regulatory compliance and adhering to data integrity, ALCOA++ to fulfil our clients' requirements.
